2.15 Plan of Action by IQAC/Outcome

The plan of action chalked out by the IQAC in the beginning of the year towards quality enhancement and the outcome achieved by the end of the year *

Plan of Action	Achievements
1) Encourage the faculty for research activity.	1) The funded research project increased
2) Student should encourage to go for skill development program & internship in industry.	2) No. of students pursuing such program increased.
3) Faculty to be recruited as per norms.	3) Faculties recruited.

1.2 (i) Flexibility of the Curriculum: ~~CBCS/Core~~/Elective option / ~~Open options~~

Elective Subject Opted by BE (E&Tc) Students:

Elective-I: Digital Image Processing

Students learn about one dimensional signal processing in subject like Signals and Systems (SAS) and Digital Signal Processing (DSP). A natural extension of many of the algorithms learnt in these subjects can be applied to 2D signal like image and video data. An application of many signal processing algorithms to image is Digital Image Processing (DIP). Commonly known social applications are image enhancement (quality improvement), finger print recognition, face detection, traffic violation. CBIR etc...

Elective-I: Embedded Systems and RTOS

This elective is offered by the department because It is helpful for students to able to Understand various stages of hardware, software in embedded domain. In Embedded domain, multitasking kinds of application are expected in today times and that kinds of topics are explored in this subjects. This subjects help students in to understand of fundamental concepts of RTOS and Embedded Linux OS. It also deals with MuCOS-II RTOS by studying features and kernels structures. Embedded RTOS topics expose students to integrate various domains and make them inter disciplinary projects.

Elective-II: Electronics Product Design

This elective is offered by the department because It is helpful for students to able to Understand various stages of hardware, software and PCB design , Know about importance of product test & test specifications , Understand special design considerations and importance of documentation after completion of course.

Elective-III: Audio Video Engineering

After learning this subject students will get benefit to learn and understand the working of real life video system and the different elements of video system. Students will get overview of fundamentals of audio systems and basics of Acoustics.

Elective-IV: Wireless Networks

It is helpful for the engineers to completely understand the trends in communications of the future. Also student will able to understand and fully exploit packet based switching for Voice and Multimedia. After this course student will learnt Fundamental of mobile communication, WiLAN , 3G services , VoIP etc.

Elective-IV: Biomedical Signal Processing

To understand and study origins and characteristics of some of the basic biosignals most commonly generated by human being such as ECG, EEG, EMG, ENG, ERG, EOG etc. To understand use of bio signals in diagnosis, patient monitoring and physiological investigations. To explore research domain in biomedical signal processing and application of established engineering methods to complex biomedical signals problems.

Elective opted by Computer Engineering Department

Semester I:

Elective I

Data Mining Techniques and Applications

This subject provides students with a solid understanding of data mining concepts, techniques and tools which will help to meet business needs.

Elective II

Embedded Security There are good Opportunities for computer students who are particularly capable of hardware-related programming and of designing special hardware if required and integrating it into complete systems. This subject meets this demand

Semester II:

Elective – III

Cyber Security

Now days Cyber attacks are becoming more common and more harmful so awareness among students / people should be required & also Cryptanalyst, hackers are on demand.

Elective – IV

Business Analytic and Intelligence

This subject provides in-depth knowledge of handling data and Business Analytics' tools that can be used for fact-based decision-making.

Mechanical Engineering:

Semester I

Elective I- Reliability Engineering or Energy Audit

Elective II- Operation Research , Gas Turbine

Semester II

Elective III- Automobile Engineering

Elective IV- Finite Element Analysis

Reliability Engineering: It is multidisciplinary subject, can be used as analysis tool for heat power, design and production stream. Also can be used as interdisciplinary advanced tool for mechatronics systems and in management.

Energy Audit :Use and conservation of energy has become one of the important global concerned. Broader system approaches can be taught for proper use of energy

Operation Research :All mechanical subjects can be put in study for optimisation using OR

Gas Turbine :Because of energy crisis we need to increase the install capacity of power plant. To become a developed country its necessary to increase per capita energy.

Automotive Engineering :Global increase in automotive sector, greater opportunities are in Automobile industries

Finite Element Analysis :Modern tool for design and analysis. It is preferred by every as well as researchers

(ii) Pattern of programmes:

1.4 Whether there is any revision/update of regulation or syllabi, if yes, mention their salient aspects.

- | |
|--|
| <ul style="list-style-type: none"> • Yes, SPPU is regularly updating the syllabi. The Teachers from this Institute are actively participating in this updating process. The marking scheme is changed to credit system, and audit course (non credit) has been introduced • Recently SPPU has revised SE- Information Technology, E&TC, Mechanical Engineering, Civil Engineering and Computer Engineering syllabi has been updated from Marking to Gradation -Credit scheme. • In this year, syllabus of T.E has been revised and it will be implemented from 2017-2018. |
|--|

Silent Aspects:

In Mechanical Engineering the new structure and syllabus was introduced from 2015-16 and credit system will be followed. Mechanical engineering outcomes have been identified and curriculum and syllabus have been structured in such a way that the courses meet these outcomes. The outcomes are related engineering concepts, skills, software, knowledge, system design and also weightage is given for practical related subjects. These outcomes will be acquired by the students at the time of graduation. Each course in the programme defines clear instructional objectives which are mapped to the course outcomes.

In Electronics and Telecommunication SE (2015 Pattern) Theory subjects are based on core branch. Data Structure and Algorithm and Object Oriented Programming introduced in this curriculum to make the students familiar with basic concepts and techniques of object oriented programming in C++ & Java which will develop an ability to write programs in C++ and Java for problem solving.

The Computer SE syllabus was modified considering the need of curriculum / industry. It was modified considering the feedback taken from stakeholders. Earlier pattern had 2 Practical heads and 1 Oral head, new syllabus has all 3 Practical heads in both semesters. This helped the students to learn all the core subjects from practical point of view. Data Structure and Problem Solving (DSPS) (2012 – Semester I) was divided into Data Structures and Algorithms (DSA) (2015 – Semester I) and Advanced Data Structures (ADS) (2015 – Semester II). This helped the students to thoroughly understand the core subject of Data Structure. Object Oriented Multicore Programming (OOMP)(2012 – Semester II) was introduced as Object Oriented Programming (OOP) in new syllabus for Semester I. This helped students to implement the OOP concepts for OOP as well as Data Structure subjects.

In the year 2016-17 SE syllabus for IT was revised. The revised syllabus is a blend of hardware and software related subjects. The hardware related subjects are Digital Electronics and Logic Design, Computer Organization, Foundation of Communication and Computer Network, Processor Architecture and Interfacing. Software subjects like Fundamentals Of data Structures, Problem Solving and Object Oriented Programming and Data Structures and Files.

2.6 Innovative processes adopted by the institution in Teaching and Learning:

- **Techniques like Video Lectures, Puzzles, Crosswords, Role Play, Animation, are used in Teaching Learning Process.**
- **Use of ICT techniques are effectively implemented**
- **Subjects like Structural Design are taught using Project Based Learning. Under this methodology, students are encouraged to make models of structural elements which helps better understanding of the subject.**
- **K-point recording , STP-Student Training Programme, Skill Development, AMCAT,QALR,VAP**

2.12 How does IQAC Contribute/Monitor/Evaluate the Teaching & Learning processes:

The IQAC plays a vital role in planning monitoring and evaluation of Teaching Learning.

- **IQAC provides the guidelines for planning of each semester by considering / discussing the following points.**
 - ✓ **Result of previous semester**
 - ✓ **Placement statistics and feedback of employers.**
 - ✓ **Feedback of Teaching, Alumni, Parents**
 - ✓ **Expert opinion**
 - ✓ **Outcome analysis**
 - ✓ **Monitoring of the teaching plan and other activities are undertaken by HOD and academic coordinator**
 - ✓ **The feedback from students about teaching is taken online at mid of semester and analyzed in IQAC meeting. The corrective measures are taken accordingly**
 - ✓ **The appraisal is filled by teacher at end of every academic year**
 - ✓ **Corrective action taken on the same**
- **The policies are decided as per the vision and mission of Institute and objective of NAAC.**

Criterion – VI

6. Governance, Leadership and Management

6.1 State the Vision and Mission of the institution

Vision Statement:

उत्तमपुरुषान् उत्तमाभियंतुन् निर्गतुं कटीबद्धावयम

"We are committed to produce not only good engineers but good human beings, also."

Mission Statement:

"Holistic development of students and teachers is what we believe in and work for. We strive to achieve this by imbibing a unique value system, transparent work culture, excellent academic and physical environment conducive to learning, creativity & technology transfer. Our mandate is to generate, preserve and share knowledge for developing a vibrant Society."

6.2 Does the Institution has a management Information System

Yes

Institute use GEMS software for office and technical work.

6.3 Quality improvement strategies adopted by the institution for each of the following:

6.3.1 Curriculum Development

- **The curriculum is developed by SSPU Pune gets upgraded after every 4 years**
- **Faculties are actively participating in the process of design and development of curriculum at various levels such as member BOS, coordinators for subject revision, etc.**
- **The course objectives and course outcomes are analyzed regularly to find the gap if any, and the domain experts along with the subject teachers are deciding the corrective measures such as Content beyond syllabi, Industrial visit, The guest lectures, Workshop, etc.**

6.3.2 Teaching and Learning

- **ICT based Teaching Learning process is followed**
- **Innovation teaching methodologies are included in teaching plan like cross word puzzle, role play etc.**
- **Content beyond syllabus is planned to meet the objectives**
- **Course allocation is done to faculties prior to start of semester**
- **Teaching Plan is prepared and made available to student**
- **Implementation is done and monitored as per plan**

6.3.3 Examination and Evaluation

- **Examination is conducted as per norms rules and regulations by SPPU Pune**
- **Formative and summative assessment is done**

6.3.4 Research and Development

- **Policies for consultancy are finalized and made available to faculty**
- **Faculty and students are motivated and promoted to carry out research**
- **Student and faculty re encourage to file the patents**

6.3.5 Library, ICT and physical infrastructure / instrumentation

The Library is automated with Easy Lib library management software and the operations of cataloguing, circulation, stock verification have been automated. Online Public Access catalogue (OPAC) enables user to search the books in the possession of the library.

6.3.6 Human Resource Management

- **The service rules, Pay-packages and other facilities are given to faculty and staff as per norms by SPPU & Govt. Of Maharashtra**

- **The entire admission process of the student is governed as per norms by AICTE, DTE and Govt. Of Maharashtra**

6.4 Welfare schemes for

Teaching	* Gratuity * Study Leave * Staff Development * Staff Quarters * Medical Facility
Non teaching	* Gratuity * Study Leave * Staff Development * Staff Quarters * Medical Facility
Students	* Students Insurance * Earn & Learn Scheme

6.5 Total corpus fund generated

Nil

6.6 Whether annual financial audit has been done

Yes

No

6.7 Whether Academic and Administrative Audit (AAA) has been done?

Audit Type	External		Internal	
	Yes/No	Agency	Yes/No	Authority
Academic	Yes	SPPU,NAAC,DTE	Yes	IQAC
Administrative	Yes	M/S K. S. Mali & Co. Chartered Accountant	Yes	Internal Audit Department STES, Erandwane, Pune-004

6.8 Does the University/ Autonomous College declares results within 30 days? NA

For UG Programmes Yes No

For PG Programmes Yes No

6.9 What efforts are made by the University/ Autonomous College for Examination Reforms?

NA

6.10 What efforts are made by the University to promote autonomy in the affiliated/constituent colleges?

NA

6.11 Activities and support from the Alumni Association

- | |
|--|
| <ul style="list-style-type: none"> • Alumni meet- The Institute is organizing an Alumni meet every year • Interaction of Alumni with Faculty- For taking feedback from our Alumni, an interaction of Alumni is arranged at Institute with faculty • Guest lecture of Alumni- The guest lecture of Alumni is arranged at Department level in order to establish an interaction between present and passed out students • Any achievement of Alumni is shared with present students to motivate them • Placement Assistance -Some of the Alumni either entrepreneur or working at senior positions in Industry are offering assistance for placement of the students from this Institute |
|--|

6.12 Activities and support from the Parent – Teacher Association

- **The institute is in continuous contact with parents**
- **For First and Second Year Engineering students, an orientation program is organized every year**
- **The major intention behind organizing this orientation programme is to introduce faculty with parents**
- **For every class, Teacher Guardian system is implemented, where 20 students are allotted to one faculty member**
- **This faculty member is establishing communication with the parents either online or offline**
- **The academic, extracurricular or any other progress of the student is informed to the parents and both of them are solving the problems faced by the students if any**

6.13 Development programmes for support staff

- **The supporting staff is encouraged for improving their academic /educational qualification**
- **On up-gradation of their qualification, the management is promoting these staff as a reward**
- **Some of the programmes are also organized by the Departments to improve their professional skills like soft skills, different software training, etc. for example demonstration of video editing tools was organized by Department of information Technology for supporting staff to develop video editing skill in supporting staff.**

6.14 Initiatives taken by the institution to make the campus eco-friendly

- 1.Green Audit conducted**
- 2.Tree Plantation activities are regularly carried out**

Criterion – VII

7. Innovations and Best Practices

7.1 Innovations introduced during this academic year which have created a positive impact on the functioning of the institution. Give details.

- 1. Students are encouraged to enrol for various online courses conducted by IIT Bombay such as Advance C, Python etc.**
- 2. New Software named “ASPIRE” has been introduced for administrative work along with TALLY, GEMS and ZOOM**
- 3. Administrative staff is trained on new examination techniques and account related software by SPPU**

7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the beginning of the year

TASK	ACTION TAKEN	OUTCOME
1. Training the Civil Engineering students in software required for Civil Industry	Department of Civil Engineering has conducted in house three weeks training course (VAP) on “AUTOCAD 2D” by CADD CENTER.	50 second year students have been benefitted by the Training
2. Improvement in mass recruitment	10 hours training to final year students on GD & PI	159 students placed till date

7.3 Give two Best Practices of the institution

- 1. “Teacher Guardian” scheme for continuous academic monitoring of students accompanied by “Student Training Program” for technical as well as soft skill enhancement of students for improved employability**
- 2. Enhancing the quality of technical education through Guest Lectures by eminent personalities, Industry interactions as well as inculcating passion in student and faculties towards the pursuit of research**

7.4 Contribution to environmental awareness / protection

1. **Tree Plantation drive has been conducted within and outside the Institute campus**
2. **Monitoring the effective utilization of water in campus**
3. **Environmental awareness program has been conducted for students and staff**

7.5 Whether environmental audit was conducted? **Yes**

7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

1. Strengths:

1. **Adequate infrastructure for engineering courses**
2. **Sincere and dedicated faculty**
3. **Subjects taught at UG and PG level**
4. **Located in an Industrial hub**
5. **Support from founding society**

2. Weakness:

1. **Low publication rate of faculty at international journals**
2. **Inadequate patents and consultancy**
3. **No academic flexibility as an affiliated college**

3. Opportunities:

1. **May be developed as a centre of engineering in collaboration with educational institute in the locality**
2. **Introduction of job-oriented Add-on courses**
3. **Support from industries in state**
4. **Widening scope for consultancy and add financial resources**
5. **Interdepartmental collaboration for research**

4. Challenges:

1. **Involving more industries for development**
2. **Creating more research facility for faculty**
3. **Attracting better quality students and faculty**
4. **Widening scope for more extra-curricular and collaborative work**
5. **Add on bridge courses to meet the ever changing industries requirement.**

8. Plans of institution for next year

Plan of IQAC for Academic year 2017-18:

Besides the regular day-to-day Planning, Implementation, Monitoring and Correction of Quality of holistic development of students, IQAC is taking up the following weaknesses for improvement.

1. IQAC will try to establish a solid linkage between the Institute and Industry to take projects that are the requirements of the society
2. To achieve this each department will try to connect with at least one reputed industry
3. More efforts will be taken to widen the consultancy services
4. Every department will try to start at least one job-oriented add-on course
