Once we passed out from college, we get busy in our day-to-day life. We always want go to college, meet old friends, revisit our happiest days and many more. But our strict schedule doesn't allow us to do it. Alumni Association makes it happen. Alumni Association strives to develop connections among alumni and institute to strengthen their commitment to SAE. Alumni meet provides platform to share their view and support for the institute. It helps to bring new technologies, build professional relations with industry and update the knowledge of economics. SAE Alumni Association was established in 2010. Till now we have organized Nine alumni meets, for which the response was very good.

### **Vision and Mission**

**Vision:** Meet old friends, make new friends and discover new opportunities.

**Mission:** SAE Alumni Association provides and supports alumni programs and services, facilitates communication with alumni and seeks to strengthen alumni bonds of fellowship, professional association, leadership and the service of humanity.

## Objectives

**Prospective:** recognizing that affinity for the SAE experience begins with the quality of the graduate student experience and is enhanced through lifelong learning and engagement.

**Supportive:** responding to and anticipating the needs and interests of graduate alumni must guide our efforts in promoting their personal and professional development.

**Comprehensive:** supporting and developing the graduate alumni network requires a “Whole of SAE” approach, one that fully integrates the efforts of all SAE’s, on campus and worldwide.

**Inclusive:** our approach must also enliven and enrich the lives of graduate alumni by reinforcing an atmosphere of fellowship.

The Alumni are the face of Institute. They spread institute approach worldwide. Alumni supports placement activities, they are invited as Resource persons on areas of their expertise, work as Examiners for practical examinations / Project evaluation, Participation in curriculum add on courses, Work as Judge for contests organized at the Institute and render Industrial Training & arranges visits to their industries. So many activities performed by Alumni, and to keep track of all these activities communication is important.

To foster the need of communication with Alumni in institute, Alumni Association is established at Sinhgad Academy of Engineering in the year of 2010. The Vision of Alumni Association is “Meet old friends, make new friends, and discover new opportunities!” In view of the vision, the mission statement is, “SAE Alumni Association provides and supports Alumni programs and services, facilitates communication with Alumni, and seeks to strengthen Alumni bonds of fellowship, professional association, leadership and the services of humanity”. Till date nine Alumni meets have been arranged at SAE for which we got huge response.

### **"Seminar on Higher Studies"**

#### **REPORT ON "Seminar on Higher Studies"**

**Venue: Computer Department.**

**DATE: 21<sup>st</sup> February 2023**

The one day Seminar on Higher Education Studies, inaugurated on 21<sup>st</sup> Feb 2023 at computer Department, Sinhgad Academy of engineering Kondhwa. The Seminar, which brought together prominent statisticians and policymakers from across the country and abroad, saw deliberations and discussions on the data collection mechanisms such as Administrative Surveys (AISHE) and Household Surveys, Classification of Educational Institutions as well as Educational Programmes and Student Portal. The main objectives of the Seminar were – Sharing the importance of standardization of concept and definition of education statistics;

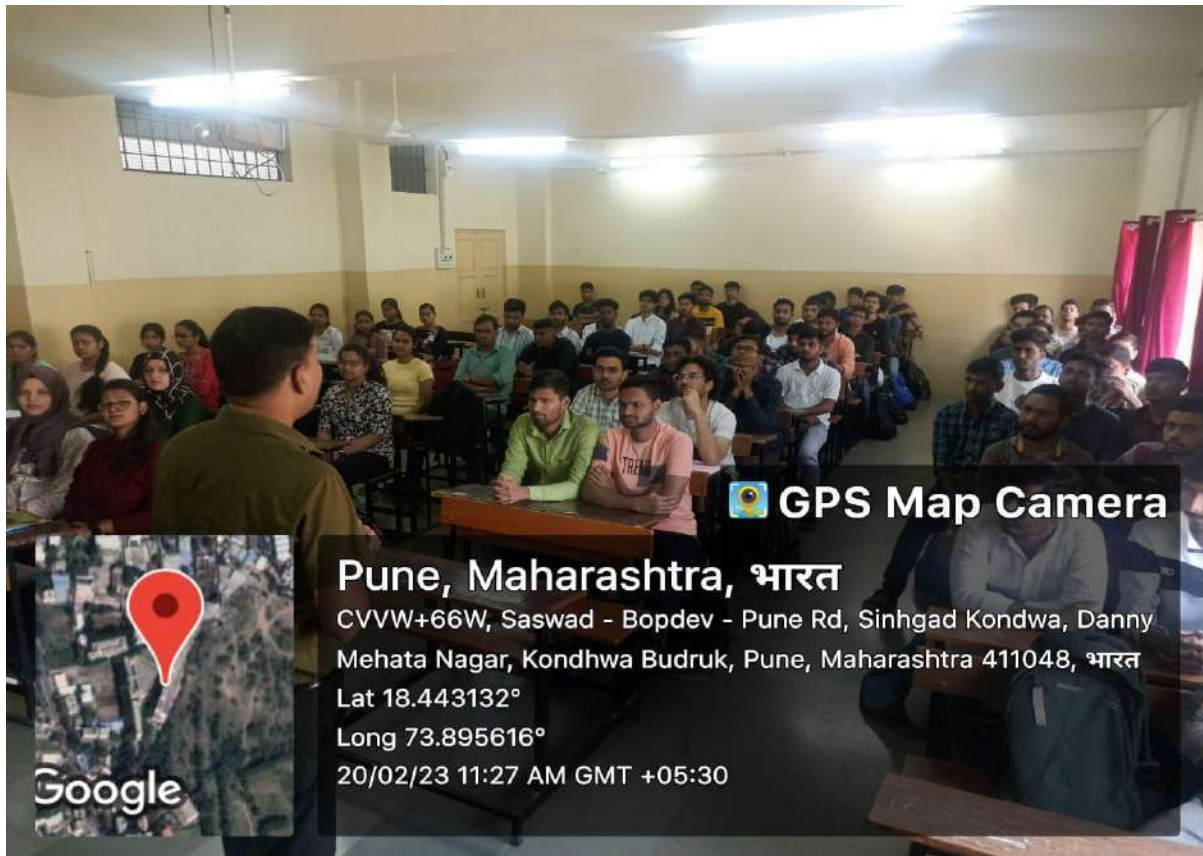

- Sharing and learning from international experiences of quality, coverage and use of education statistics;
- Managing student portal;
- Classification of Higher Education Institutions;
- Identifying the key issues on the concept, definition between administrative and household.
- surveys on education statistics and identifying the next steps to harmonize the same;
- Making consensus among the different actors working/using education statistics on the concept, definition and other methodological issues.

The Seminar started on 21<sup>st</sup> Feb 2023 with the auspicious lighting of the traditional lamp by the dignitaries including guest Mr. Shubhash Pol, Business Development Manager, Edwise International, Prof. S.N. Shelke, Head of the Department. In his address, Mr. Pol pointed out that the government uses statistics for development of policy as well as evaluation of their programmes and schemes. However, he added, that there were some gaps in many areas in statistics related to Higher Education (HE) in India. To overcome the problem of under-reporting of statistics by institutions to the regulatory bodies, Mr. Pol suggested that the compliance issues can only be dealt with through legislative support. He even suggested bringing the

AISHE under the framework of the Collection of Statistics Act (2008) to ensure effective and wider collection of statistics. Speaking before him, Prof.S.N.Shelke said that though India was well on its way to achieve the desired number of HE Institutions, a lot of emphasis was required on collection of good data in this sector. In his address, Mr. Pol called the seminar an important and timely event while adding that the HE sector is facing a lot of challenges in the country, especially since the demand for HE has increased manifold in the past two decades. Speaking about the Higher Education Qualification Framework (HEQF), Global University Rankings and University Rankings within India. The Valedictory session for the event was chaired by Mr. Subhash Pol. He was joined on the dais by a host of dignitaries including Prof. S.N.Shelke, Head Of Department, Prof. A.N.Adapanwar, Assistant Professor, Prof. M.K.Ninangune, Assistant Professor, prof.G.S.Nikam Assistant Professor. The Seminar was organised by the department of computer engineering,Sinhgad academy of engineering,Kondhwa,Pune.

### WORKSHOP REPORT

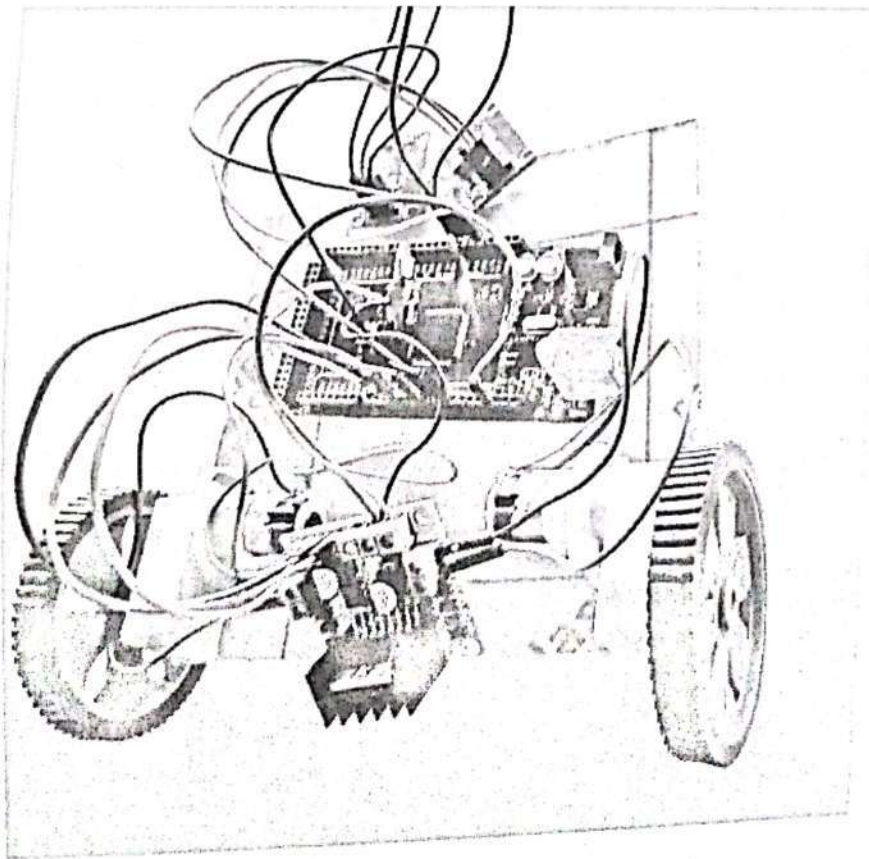

One day Robotics workshop was organized by team Astros on 10 Dec 2022. Total 47 students had registered for the workshop. Aliasgar Pardawala, Ishaq Polishwala, Aayush Bhansali, Nikita Bagrecha, Dheeraj Salgotra, Abul Hasan Khan, Ruttik Trymbake, Raksha Pawar and Aditi Sriwastava were the trainers for the workshop who are the alumni of Sinhgad Academy of Engineering. Along with these trainers Pratik Belote, Chetan Muluk, Tanmay Shinde and Sagar Salunke have conducted theory and hands-on sessions successfully. Pankaj More, Aniket Shinde, Aditya Ekunkar and Pratik Landge have well coordinated the entire event.

The workshop commenced by briefing the students about the schedule for the 2 sessions. Then the students were escorted to their respective labs where they were taught the basics of Robotics. The topics covered in workshop focused mainly on the Arduino Microcontroller and its interfacing with various sensors like infrared, ultrasonic and hall sensor. The students were then introduced to the concept of Home Automation. The workshop aimed at introducing the students to the branch of Robotics and developing their logic to solve various day to day problems using what they were taught. The workshop included a wide range of topics like Circuit Designing and Printing, Solidworks and Pneumatics. The students were given time to build an innovative robot based on the topics covered in the workshop. Amazing ideas sprouted out of their young minds and the best idea was rewarded. This workshop concluded with presenting the students with certificates and informing them about our Team.

We extend our gratitude towards Prof. A. B. Ingole, Dr. K.M. Gaikwad (HoD & Vice-Principal) and Dr. K. P. Patil (Principal) for their constant support and guidance.

Respected Sir/Mam,

I am Pratik Belote from Team Astros, the Robotics team of our college. I am writing to request your permission for conducting a workshop on Robotics for second and third year students.

Since the students have a subject Project Based Learning in their second semester, this workshop will be very beneficial for them. They will develop programming and problem solving skills. Because of the workshop they might be able to think of innovative ideas for the projects to solve real life problems.

This workshop will be conducted on 10<sup>th</sup> & 11<sup>th</sup> December 2022 at 10.00 am and will end around 5.30 pm. I request you to grant us permission for the same.

Yours faithfully,
